Mike Everling
Candidate Assembly
51

Dear Mike

It is with great delight that I find myself endorsing you for the 51st Assembly seat. We have known one another and have worked together on community projects in El Sereno for going on 20 years. In fact, you were there contributing greatly during the founding of the LA32 Neighborhood Council.

Over that time you have remained steadfast, keeping your pulse on the community. Never, over all that time, can it be said that your integrity nor your zeal have ever been questioned. We have witnessed many changes to this community over these many years. Having a Representative of your calibre would be a welcome and needed change..."Someone who is from the Community..Who knows our Community" "Who will truly represent our Community"

All too any times our constituents are given candidates who have no ties (other than political) to El Sereno. It is refreshing to consider that someone as yourself, who has a long and faithful history with this community, could truly represent us in Sacramento
